We encourage a partnership between the families of special needs students and the Worcester Public Schools and in doing so, improve the opportunities and education for all our children. The hope is to provide a network of parents to share resources and support one another through common interest and concern for our children.

- ◉ OUR MISSION
- ◉ Promote and support an educational environment where each child receives equal access to appropriate, effective and innovated educational opportunities under the rights which they are guaranteed by federal and state law.
- ◉ There is NO membership required to join the PAC, parent participation will help the PAC work towards improving and understanding the functioning of the of the Special Education dept and how we can partner with the administration to collaboratively work together.
