

Audacity & Office 365 for ALL World Language Learners

We are inviting ALL language teachers from grades seven to twelve to get involved! Audacity is a very easy program to use and a great way to get ALL students' voices recorded to be able to listen to and assess. Teachers will walk through a sample lesson using Audacity and will also learn to export and save files on the OneDrive or OneNote. Teachers will also have the option of learning how to create audio files themselves in OneNote to respond to their students. The creative possibilities are endless with Audacity and Office 365. Join us!

When? Wednesday, January 18th from 2:30 to 4:30pm

Where? Fourth floor conference room at DAB

Presented by: Dante Quercio, Technology Coach and Michelle Huaman,
World Language Liaison

For more information, contact Michelle at huamanm@worc.k12.ma.us

Please be sure to sign up through TeachPoint.
