A Teacher's Day Made Easier with Microsoft Classroom and OneNote Class Notebooks

Microsoft Classroom is your homepage for managing all of your classes. Organize multiple class sections, create and grade assignments, collaborate with other teachers in Professional Learning Communities (PLCs), and provide feedback to students.

In education, it's as easy as 1,2,3! With OneNote it's as easy as ONE. One place to create all your lessons, one place to share with students and one place to create students' portfolios & projects!
