Note \* any boat with this are part of North HS ROTC Program. These boats have been assigned to them by the Naval Academy and can be used by Worcester Crew. They are US Government equipment.

12 Erg's old and need of repair

8 Cox Boxes 2 new and 6 old (some work)

60 life Jackets ( need 40 new ones)

16 slings

5 sets of oars just replaced grips and collars (8 oars to a set)

3 sets of older oars with wooden handles

12 odd oars used for replacement oars and spare parts.

1 Boat Trailer owned by the City of Worcester and in need of some repairs

3 Small launches for coaches

2 9.9hp Mercury motors

1 9.9hp Honda motor

1 Big launch 25ph Mercury motor (This was the first launch that WPHS crew owned and is old and should be replaced with a new wakeless boat for safety)

Assorted weights for training.

Jump ropes

Boat straps

Misc parts mostly outdated and for boats we no longer have.

What is needed for an outstanding program?

Girls Varsity one more 4x+

Boys Varsity three more 4x+

Two 8x+ for varsity use

4 sets of sculling riggers for the Navy's 2+ boats

Good use 8+ for novice program.

16 pairs of sculling oars.

Three sets of new oars for the varsity program.

12 new erg's

4 new cox boxes

Tools/wrenches

4 US Rowing safety kits for all launches.

One land coach to work with all rowers left on shore, so all coaches can have more water time with their boats.

All Coaches should be level two certified by US Rowing

The older equipment can be used to start a middle schools team. The cost to set up would run around \$5,000 for sculling oars and riggers. A coach for \$2,500. There would be three session a week Mon/Wed. Tue/Thur and Fri/Sat. There are races that they could go to and at the end of the season we would hold our own regatta for them at the lake.
