

Response
MATH

The math revisions clarify the student learning expectations of the standards.

- 2016-2017- A communication was forwarded to staff in monthly newsletters about proposed changes and process.
- March 2017- The approved DESE Math Frameworks were shared with staff in email and newsletters. The Mathematics Liaison participated in DESE webinars and meetings on the new frameworks.
- August 2017- PD on new frameworks was presented to elementary coaches and secondary department heads to share with teachers.
- 2017 - 2018 Districtwide support unpacking the standards is provided to grade level teams during PLCs and department heads at monthly meetings. Continuous communication is provided regarding standards in monthly newsletters and emails.
- All revisions are available in full draft of the revised 2017 *Curriculum Framework for Mathematics*.

ENGLISH

- 2016-2017- Communication was forwarded to staff in monthly newsletters about proposed changes and process.
- March 2017- DESE approved ELA Frameworks and communicated to all staff in email and newsletters. The ELA Liaison participated in DESE webinars and meetings on the new frameworks.
- August 2017- PD was provided on new frameworks presented to elementary and secondary focused instructional coaches.
- Districtwide Unpacking of Standards Workshops were presented at various times and venues. Information was also presented to ELA Department Heads at the Secondary level.
- 2017-2018 - Continuous communication regarding standards is provided in monthly newsletters and in emails.
