From 2000 to 2007, Chapter 70 aid rose by $700 million while school spending on employee benefits for the same period rose by over $1 billion.

From 2000 to 2007, inflation adjusted per pupil spending fell 11.3% per year for instructional materials and 3.6% per year for teacher training.

Despite almost $5 billion increase in total school spending form 1996 to 2007, there is almost no increase in the number of teachers and average class size has not improved.

School Funding Reality: A Bargain Not Kept
• Over the past 17 years, actual costs of running schools exceeded foundation budget – in 2010, actual costs exceeded budget by 16% in urban districts.
• Adjusted for inflation, urban districts were:
  • 21% below foundation in 1993
  • Rose to within 3% of the goal in 2000
  • Now back to down to 16% below in 2010

School Funding Reality: A Bargain Not Kept

• Foundation understates core SPED costs by about $1.0 billion
• Foundation understates health insurance costs by $1.1 billion
• Most districts hire fewer regular education teachers than the foundation budget sets as an adequate baseline
• Inflation adjustments have not been fully implemented, causing foundation to lag behind
DECEMBER 12 2011

“The small growth in tax revenues will put great strains on the fiscal 2013 budget with increases in nondiscretionary spending outpacing the additional revenues available”

The forecast anticipates the state’s income tax rate will drop from 5.3 percent to 5.25 percent on January 1, 2012, reducing revenues by $54 million in fiscal 2012 and $114 million in fiscal 2013.

JANUARY 12, 2012

Patrick, Legislative Leaders Agree on FY13 Revenue Estimate

Legislative leaders and the Patrick administration have agreed to base their fiscal 2013 budget bills on the expectation that taxpayers will generate $21.95 billion in taxes, according to a State House source.

That’s a 6.9 percent increase over the original estimate used to build this year's state budget.
Budget Preview FY 2013

State budget deficit will be well over $1 billion. That shortfall can be traced to three things:
- Tax Revenues have fallen sharply.
- The cost of government programs has grown.
- We have to address a $550 million deficit carried over from FY 2012

The FY13 Deficit: A Rough Calculation

\[
\begin{align*}
550 \text{ Million} & - 266 \text{ Million} + 1.01 \text{ Billion} = 1.29 \text{ Billion} \\
\text{gap from FY12} & \quad \text{in new revenue} \quad \text{cost growth (primarily inflation)}
\end{align*}
\]

\[
\begin{align*}
550 \text{ Million} & - 840 \text{ Million} + 1.4 \text{ Billion} = 1.11 \text{ Billion} \\
\text{gap from FY12} & \quad \text{in new revenue} \quad \text{cost growth (primarily inflation)}
\end{align*}
\]

* Estimate 1 uses the Department of Revenue numbers for revenue and our own estimate of spending.
* Estimate 2 uses the Joint Revenue Estimate of revenue and a spending figure that incorporates additional information from the Office of Administration and Finance.
### Issues

- **State Budget**
  - **Chapter 70 Funding**
  - **Circuit Breaker** *(current 65%)*
  - **Charter School Reimbursement**
  - **Kindergarten Grant**

### Revenues

**Foundation Budget:**
- + Enrollment Increase (+219)
- + Inflation Increase (+3.65%)
= approx. $11.4 million increase

- EdJobs (-$2.4 million)
Student Enrollment

Trends
1 Yr: 219 (0.8%)
3 Yr: 1,340 (5.5%)
9 Yr: -1,296 (-5.0%)

Worcester Public Schools
Accomplishments

- Balanced Budgets with no loss of core educational services
- Increased services to Sped and ESL
- Health Insurance Change
- Utility Savings
- Outsourced Facilities Services
- Re-bid Transportation contracts FY11

FY13 Budget Approach

- Zero-based budgeting – Year 3: All positions, programs and services under thorough annual review
- Long term planning: student achievement and finance
- Status Quo is not an option: FY13 Budget will need to reflect changes beyond revenue/expense projections.
The 5 best housing markets for 2012:

1. Pittsburgh
2. Worcester, Mass: High-tech job growth has returned to this market an hour west of Boston. Many urban dwellers are looking in this area for bigger, less expensive houses than they'd find in the big city. While the average home price of $237,020 has declined 3% over the last year, prices are beginning to bottom, with 2% growth expected in 2013.
3. Houston/Sugarland/Baytown, Texas
4. Akron, Ohio

The Happiest And Unhappiest Cities To Work In

Happiest Workers: “Worcester, Mass., holds the No. 2 spot, closely followed by Oklahoma City, Okla. Both cities earned a 4.10 index score.”

Recent submittal of 11 traditional repair projects and 19 accelerated repair projects, including science lab improvements.

Largest capital investment list submitted by Worcester to MSBA.
A Student-Centered Budget

The FY13 budget process has started and is being developed with the School Committee and our school community using priorities and recommendations from a 6-prong communication strategy that focuses on student-centered balanced budget.
