

The Administration has designated the kick-off of "Reading in our City Week" to be held during the week of June 9th-13th. Students, Staff, Parents/Guardians and the community will be informed of the kick-off and the importance of summer reading and learning, as well as ideas to promote summer reading and learning. Notifications will be forwarded to parents/guardians related to the availability of the Worcester Public Library's Libby and Lilly summer schedule and location sites and times of the summer meal program.

The Administration will continue to collaborate with area cultural museums, agencies and colleges to assist in providing valuable learning opportunities to students during the Worcester Public School's summer programs.

The Administration will collaborate with cultural venues (Ecotarium, Worcester Historical Museum, Worcester Art Museum, etc.) and local businesses to explore the possibility of offering incentives for students that maintain good summer school attendance.
