

The Office of Supplemental Support Services and the Special Education Department organized successful programming for the Summer 2014. Title I programs targeted incoming 2nd through 4th grade students for academic enrichments in literacy, numeracy and science.

Special Education programs targeted students, whose Individualized Education Plans (IEP), indicate the need for Extended Year School.

1. Program Outcome

Students who participated in the Title I programs successfully completed a student portfolio that was delivered to their incoming teachers for the school year. These portfolios included sample writings, science journals, completed summer reading projects and additional math work completed during the summer program.

Students on IEPs completed thematic units focusing on reading, writing, mathematics and science. Parents received progress notes at the conclusion of the summer program.

2. Attendance

Please see attached report.

3. Number of students who participated

Please see attached report.
