A common artistic practice, when stuck, is to turn the picture upside down and look at it anew. Often, this can provide a new direction forward. In that spirit, many of these works tip conventional practices upside down – or rather, “down side up”.

We invite you to explore this other side with us. Please join us on March 2nd at 5:00pm - 8:00pm for the opening of **Downside Up**, featuring the work of 32 intrepid artist-educators of the Worcester Public Schools.
