

Update fall 2018:

Working in conjunction with the United Nations Association of Greater Boston, the district expanded the Model UN program to 7 secondary schools. The participating schools: Burncoat Middle School, Burncoat High School, Sullivan Middle School, South High School, Doherty High School, Worcester Technical High School and Worcester East Middle School had over 100 students participate in the 2nd annual Worcester Future Leaders Conference held at Clark University on December 14, 2018. Students debated the topic of access to clean water, passed resolutions, and honed their public speaking skills and ability to reach compromises.

The Worcester Public Schools paid the Model UN Advisers according to the contractual rate of debate club advisers, paid for the buses to and from the conference and paid the UNAGB \$2,000 for materials and conference management. The space and lunch were provided free of charge by Clark University.
