* It is important to note that students that move from Worcester to another district have been allowed to attend their WPS school under the school choice program. Once a student is accepted to attend a school district under school choice, the student has the right under state law to remain in the receiving school district until graduation from high school.

** All previously Worcester residents enrolled at Worcester Technical High. Students were not admitted to WTHS as non-resident students.

In 2017-2018, the Worcester Public Schools received \$521,363 in school choice receiving tuition. The tuition revenue is deposited into a School Choice Revolving Fund.
