

May 6<sup>th</sup>, 2019

Dear Sirs and Madams,

We are writing to you regarding the placement of a paved walkway from Saint Paul Drive to Flagg Street School. There are a number of neighborhood children, parents and grandparents who walk to school using the current dirt pathway. When it rains the path is mud, when it snows the path is difficult, if not impossible to navigate through.

In case of emergency, students and staff should be able to exit quickly to a nearby building that could provide safety and shelter, one such as the Congregation Beth Israel, less than a quarter mile behind the school on which the path will help with access.

Older children and young adults also access the school's basketball courts via this pathway, many times with their vehicles. This is a hazard to all others who use the school's outdoor facilities. Just one person sustaining an injury by one of these vehicles could lead to a lawsuit against the city. To prevent this from occurring the concerned homeowners in the neighborhood propose a paved walkway with yellow concrete poles/barriers at the entrance to provide safe access to the school and prevent vehicles from entering the school yard. It is a community school with playgrounds and basketball courts that children of all ages enjoy using off school hours.

The children and their parents will be collecting signatures from all those in the surrounding neighborhood who support this plan. We expect careful consideration by city officials and a prompt response to our request. Our children deserve this, as do the taxpayers in the neighborhood.

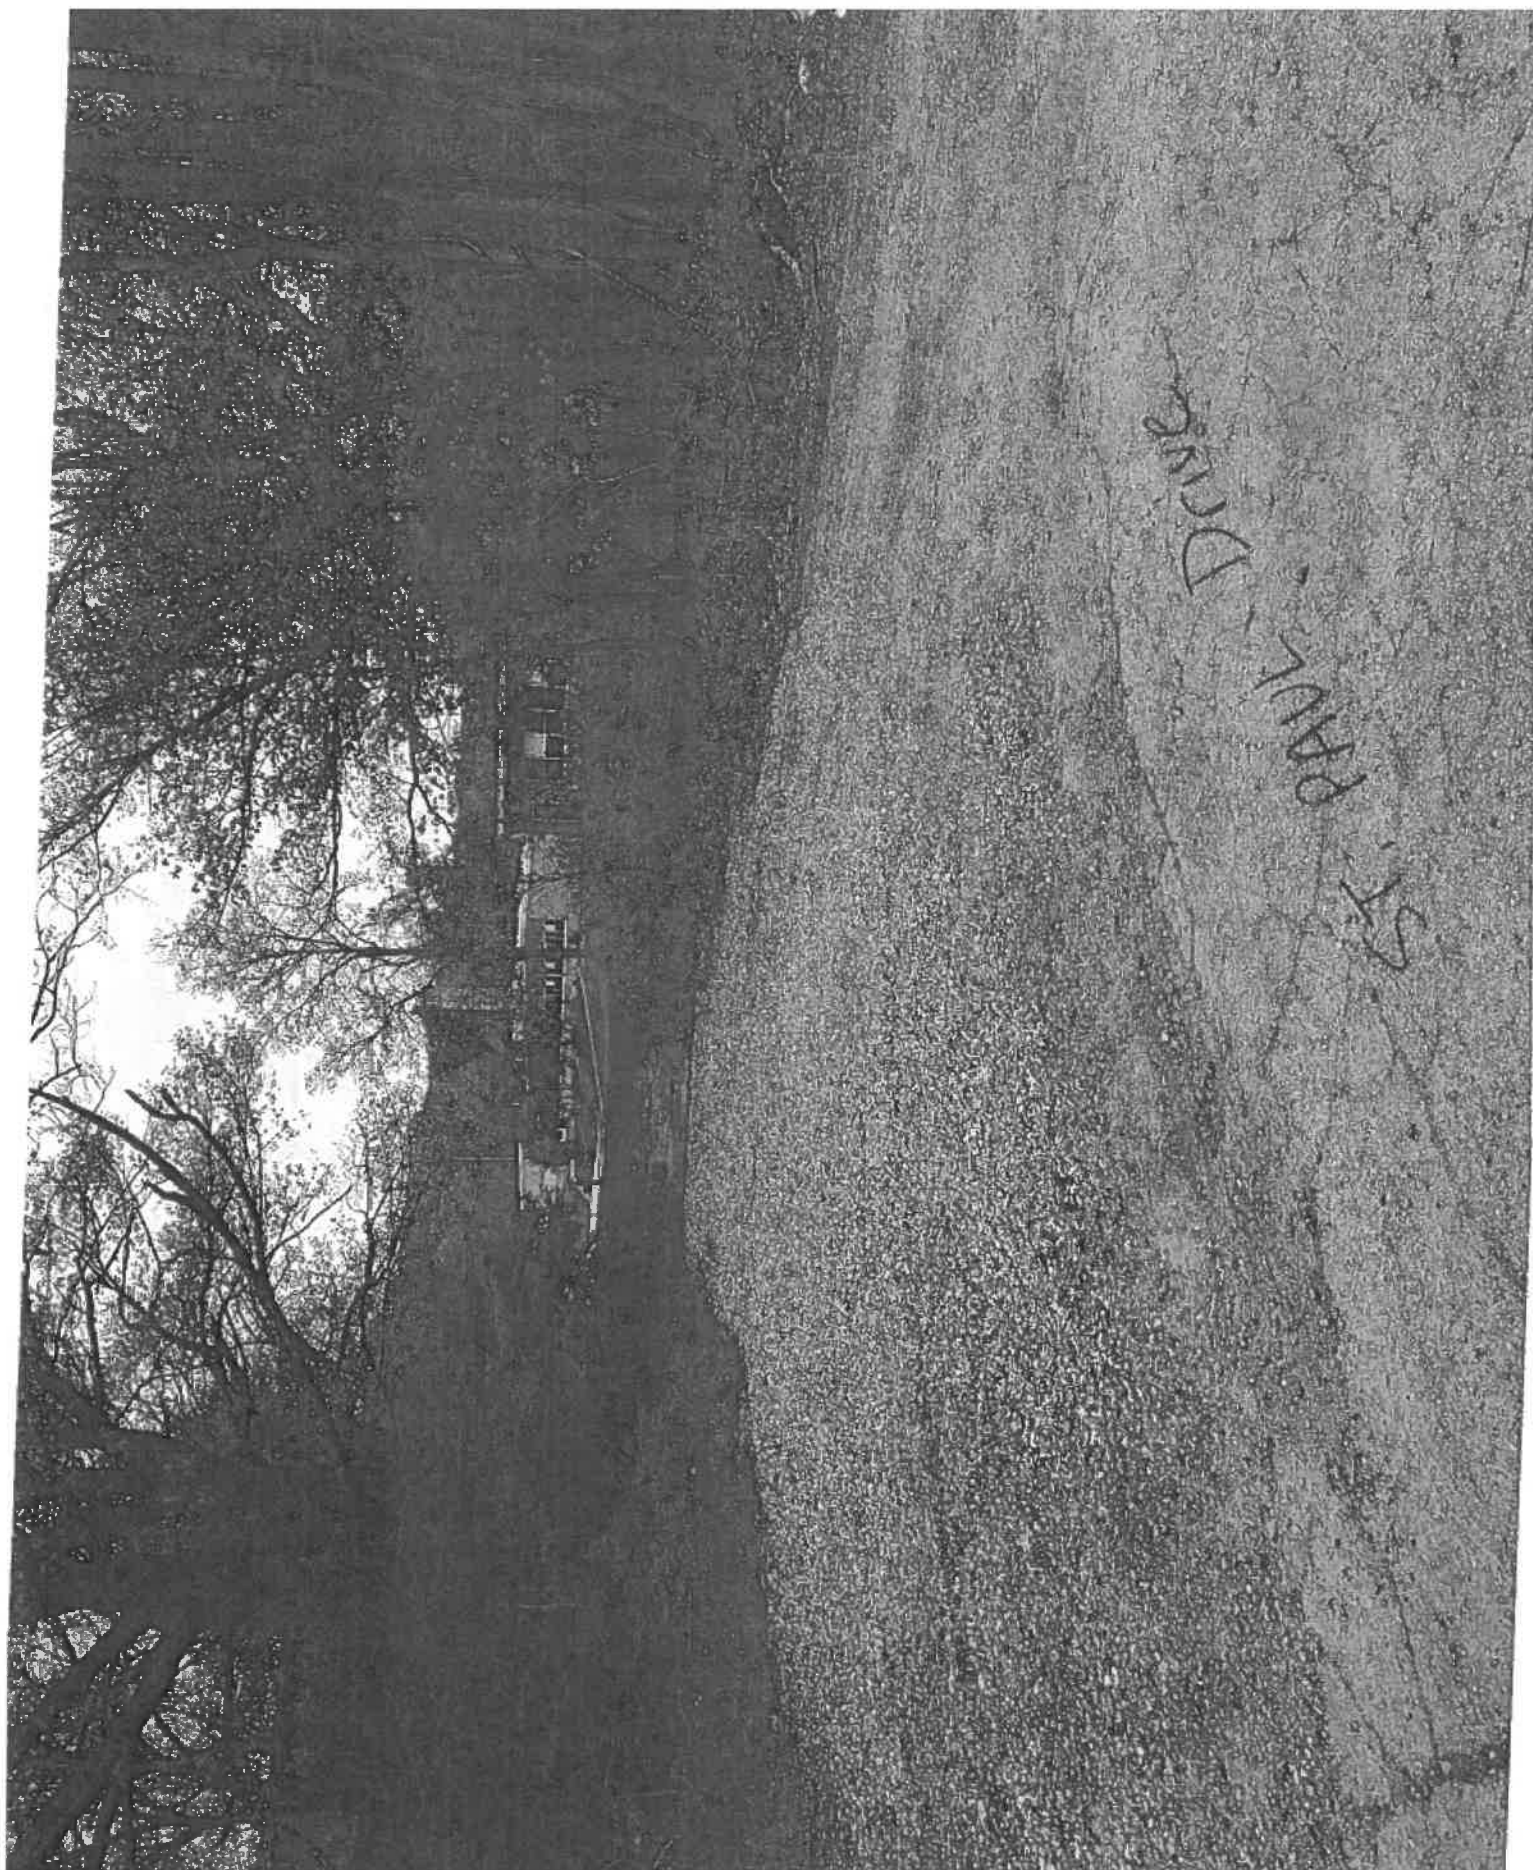

Nelson Place Elementary School has installed such a walkway and barrier on their property. We will include a photo of this, for better understanding of our request.

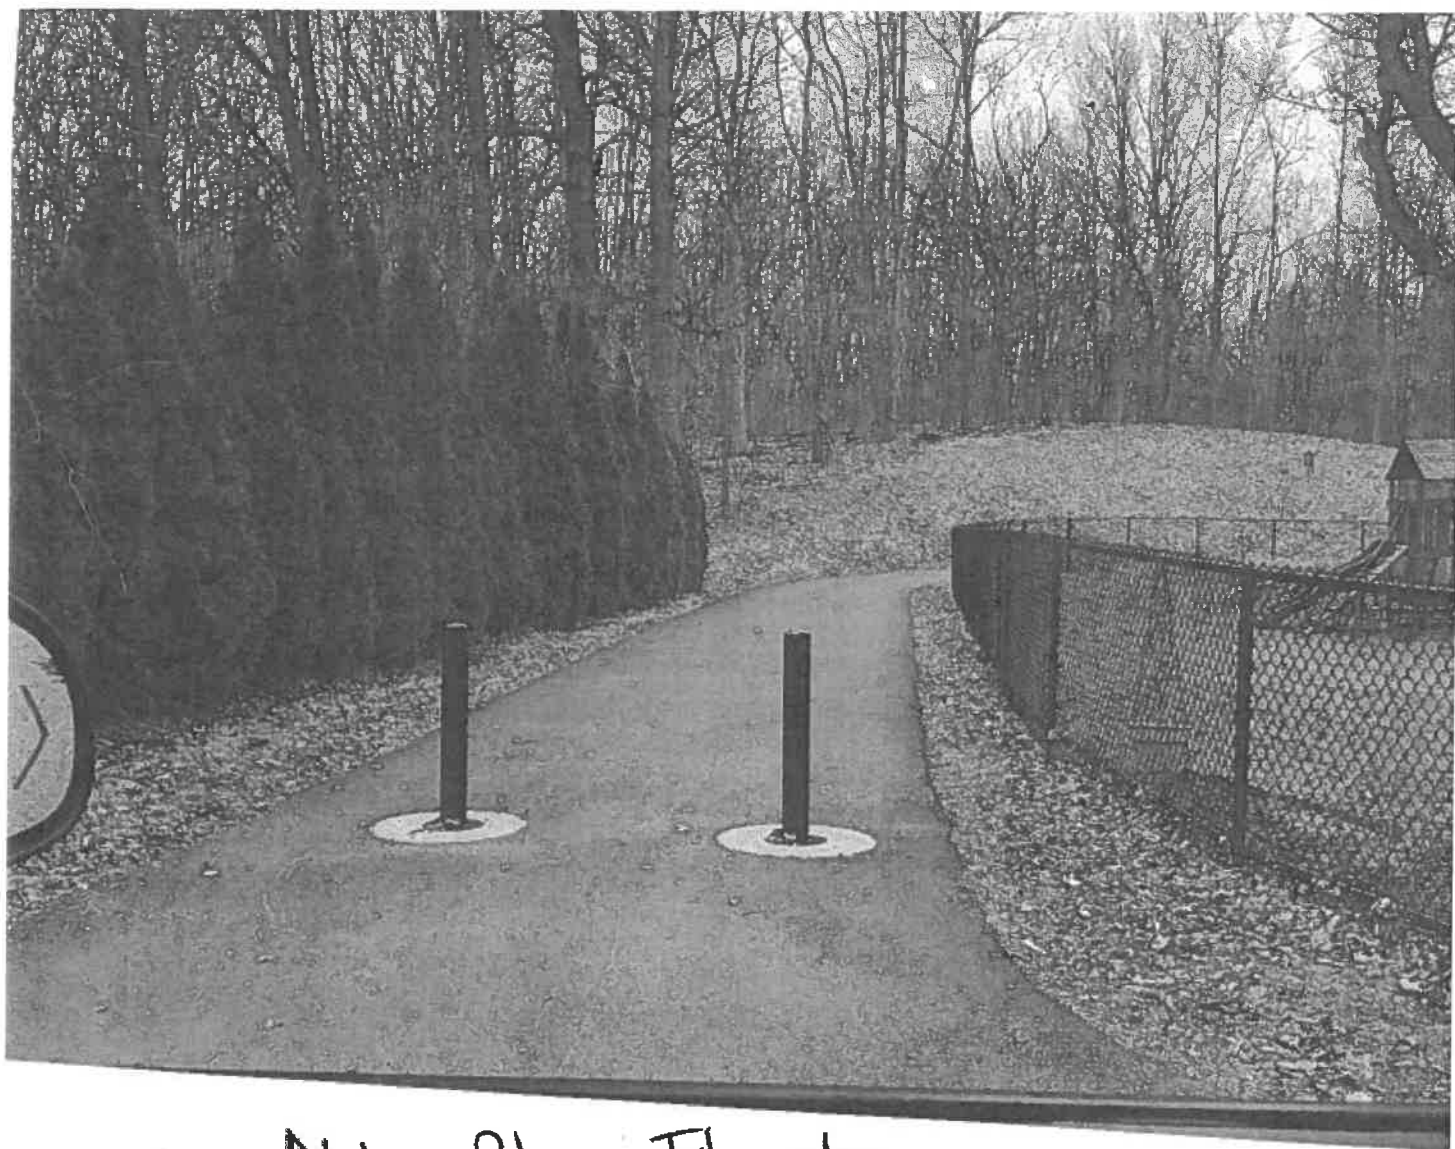

Thank you for your time and attention.

Sincerely

Alexandra Dennehy and Flagg Street School neighbors.

Nelson Place Elementary School's  
Community path
