**101 DINOSAURS AND OTHER PREHISTORIC REPTILES**

Scholastic, full color, 16 pages, board book

"This book has plenty of advantages. For one, it's neatly arranged in reader-friendly ways... the right side of the spread shows a plethora of dinos and reptiles in each category, while the left features a full-sized creature and a short definition about what makes the grouping unique. Another plus is the polished sturdiness of the book's boards." – *Booklist*
