

Our Fourth Grade News

APRIL

From the Teacher

Spring has sprung!

Can you believe we are already in fourth quarter?! Perhaps even more exciting is that we will be able to welcome ALL students back May 3rd!!

Make sure to have completed your choice of fully remote or fully in person on the WPS website. This is imperative, EVEN IF your child is already coming for Hybrid.

Continue to remind your child to shut down his/her Chromebook completely over the weekend so it can rest and complete downloading important district updates.

Look What We Are Learning!

Math: We will be finishing up our measurement and data unit to review then assess after break.

Science: We will finish studying energy transfer from place to place by sound, light, heat, and electric currents.

ELA: We are currently focused on Narrative writing. We are dissecting exemplars to see how writers craft quality pieces. We will be memorizing a helpful mnemonic (WWWwhat2how2) and making an organizer to help us remember all the elements that we should be including in our stories. Then, we WRITE! Roses are red, violets are blue. Poetry is here! I'm excited! Are you?!

Social Studies: During fourth quarter we will explore Discovering Justice and dive into States and Capitals.

Reminders

Please be sure to send students with a light jacket it's always a little colder up on the hill!

Don't forget! Students should be getting in their ST Math and Lexia minutes Monday-Friday.

Important Dates
