

Superintendent's Artist of the Week is Deborah Talhadas - Roosevelt Elementary

Deborah Talhadas is a sixth grade student at Roosevelt Elementary School. She is a very hard worker, and passionate about music, particularly guitar and recorder. She is a student who is extremely respectful and throughout online learning has always participated with her camera on and speaking, modeling and performing.

As a music student Debbie has been learning about screencastify and how to make videos of herself and of her computer screen. During the year Debbie created a video tutorial to help her classmates use screencastify.

Deborah reflects upon this unusual year, “ This school year was fun but not so much fun as the other ones when we were in school. The online sites really helped music to be fun online. One of the things I loved to do with my class this year online was Rhythm Karate. I loved Rhythm Karate because it would be a challenging thing for my class to win. When I would get into the music meeting, I would try to remember every sound and every note made. I also really loved to use Soundtrap and make sounds. Even if things weren't normal this year the teachers made it really fun. Ms. Szymcik, her music teacher tells us Deborah is, “always positive and continues to show a growth mindset through everything she does.”

We are so pleased Deborah Talhadas is the Superintendent's Artist of the Week for May 3-7!
